Field Crops Research, 32 (1993) 361–362
Elsevier Science Publishers B.V., Amsterdam

Contents of *Field Crops Research*, Volume 32

VOL. 32 NOS. 1,2 FEBRUARY 1993

Announcement from the Publisher v

Radiation-use efficiency of soybean, mungbean and cowpea under different environmental conditions
R.C. Muchow, M.J. Robertson and B.C. Pengelly (St. Lucia, Qld., Australia) 1

Temperature affects radiation use efficiency in maize
F.H. Andrade, S.A. Uhart and A. Cirilo (Buenos Aires, Argentina) 17

Selection of cowpea cultivars for cool-season production in the Sahel
B.R. Ntare and J.H. Williams (Niamey, Niger) 27

Apex size, flowering and grain yield of wheat as affected by sowing date
T. Manupeerapan and C.J. Pearson (Sydney, N.S.W., Australia) 41

Potential soil water extraction by sunflower on a range of soils
H. Meinke, G.L. Hammer (Toowoomba, Qld., Australia) and P. Want (Biloela, Qld., Australia) 59

A model to simulate the development, growth and yield of irrigated sunflower
B.T. Steer, S.P. Milroy and R.M. Kamona (Nedlands, W.A., Australia) 83

Phosphorus nutrition of linseed (*Linum usitatissimum* L.) as affected by nitrogen supply: effects on vegetative development and yield components
P.J. Hocking and A. Pinkerton (Canberra, A.C.T., Australia) 101

Effect of vesicular–arbuscular mycorrhiza on vegetative growth and harvest index of chickpea grown in northern Syria
E. Weber, M.C. Saxena, E. George (Aleppo, Syria) and H. Marschner (Stuttgart, Germany) 115

Accumulation of copper, iron, manganese and zinc by four cotton cultivars
G.L. Mullins and C.H. Burmester (Auburn, AL, USA) 129

Germinability and seedling vigor of pearl millet seeds harvested at different stages of maturity
S. Appa Rao, N. Kameswara Rao and M.H. Mengesha (Patancheru, India) 141

Cultivar maturity and potential yield of soybean
D.B. Egli (Lexington, KY, USA) 147

Variations in rate of leaf emergence, initiation of ear primordium, stem elongation and heading time as affected by vernalization duration of barley with differing growth habits
J.U. Chun (Sunchon, South Korea) 159

Screening peanut cultivars in the field for root growth: a test by herbicide injection in the soil
J.-L.B. Khalfaoui and M. Havard (Bambey, Senegal) 173

VOL. 32 NOS. 3,4 MARCH 1993

Announcement from the Publisher iii

Effects of high temperature and photoperiod on floral development in wheat isolines differing in vernalisation and photoperiod genes
H.M. Rawson and R.A. Richards (Canberra City, A.C.T., Australia) 181

Effect of drought during early reproductive development on growth of cultivars of groundnut

(*Arachis hypogaea* L.). I. Utilization of radiation and water during drought
S.C. Chapman (Brisbane, Qld., Australia), M.M. Ludlow (St. Lucia, Qld., Australia), F.P.C. Blamey and K.S. Fischer (Brisbane, Qld., Australia) 193

Effect of drought during early reproductive development on growth of cultivars of groundnut (*Arachis hypogaea* L.). II. Biomass production, pod development and yield
S.C. Chapman (Brisbane, Qld., Australia), M.M. Ludlow (St. Lucia, Qld., Australia), F.P.C. Blamey and K.S. Fischer (Brisbane, Qld., Australia) 211

Effect of drought during early reproductive development on the dynamics of yield development of cultivars of groundnut (*Arachis hypogaea* L.)
S.C. Chapman (Brisbane, Qld., Australia), M.M. Ludlow (St. Lucia, Qld., Australia) and F.P.C. Blamey (Brisbane, Qld., Australia) 227

Effect of drought during pod filling on utilization of water and on growth of cultivars of groundnut (*Arachis hypogaea* L.)
S.C. Chapman (Brisbane, Qld., Australia), M.M. Ludlow (St. Lucia, Qld., Australia), F.P.C. Blamey and K.S. Fischer (Brisbane, Qld., Australia) 243

Nitrogen fixation, growth and yield of soybean grown under saturated soil culture and conventional irrigation
G. Wang (Chiang Mai, Thailand), M.B. Peoples (Canberra, A.C.T., Australia), D.F. Herridge (Tamworth, N.S.W., Australia) and B. Rerkasem (Chiang Mai, Thailand) 257

Leaf age, decline in photosynthesis, and changes in abscisic acid, indole-3-acetic acid, and cytokinin in cotton leaves
G. Guinn and D.L. Brummett (Phoenix, AZ, USA) 269

Variation in resistance of some forage legumes species to *Orobanche crenata* Forsk.
K.-H. Linke (Stuttgart, Germany), A.M. Abd El-Moneim and M.C. Saxena (Aleppo, Syria) 277

A computer simulation describing water extraction by crop root systems
D.J. Hector, K. Gregson and M. McGowan (Loughborough, Leics., UK) 287

Predicting grain yield in Australian environments using data from CIMMYT international wheat performance trials. 1. Potential for exploiting correlated response to selection
M. Cooper (Brisbane, Australia), D.E. Byth (Patancheru, Andhra Pradesh, India), I.H. DeLacy (Brisbane, Australia) and D.R. Woodruff (Toowoomba, Australia) 305

Predicting grain yield in Australian environments using data from CIMMYT international wheat performance trials. 2. The application of classification to identify environmental relationships which exploit correlated response to selection
M. Cooper, I.H. DeLacy (Brisbane, Australia), D.E. Byth (Patancheru, Andhra Pradesh, India) and D.R. Woodruff (Toowoomba, Australia) 323

Synchronisation of tuber growth in potato (*Solanum tuberosum*): a statistical model
B. Marshall (Dundee, UK), H.T. Holwerda and P.C. Struik (Wageningen, Netherlands) 343
